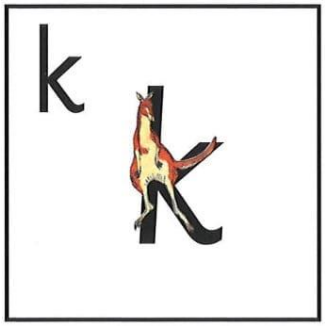
Home learning activities -Date: 24th September 2026

Literacy

During our Read Write Inc sessions the children have been learning the sound 'k.'

Activity: Support your child in saying the sound correctly whilst searching for some items in your house that start with 'k' e.g. key, kettle, kite etc. The letter 'k' is a short bouncy sound, 'k-k-king.'

To write the letter, start at the top, use the rhyme, "down the kangeroo's body, tail and leg."



Maths

The math's theme this term is number and pattern.

Resources:

- 5 balls
- Numbers written 1 to 5 on paper or number cards 1-5

Activity:

- Count to 5 – lift your finger up, one at a time as you say each number name. Encourage your child to copy you.
- Hold up your fingers and ask your child, "how many fingers am I holding up?" They can count to check. As they become more experienced at counting they should begin to say the number without re-counting all the fingers.
- Put a few balls in front of the child allow to count and match the numeral
- Sing any number rhyme-when children are singing they are training the brain in a fun and active way to learn about number and counting.
